Item 8.01. Other Events.

Interlink Plus, Inc. (the "Company") is unable to timely file its Quarterly Report on Form 10-Q for its fiscal quarter ended March 31, 2020 (the "10-Q") due to circumstances related to the novel coronavirus ("COVID-19") outbreak.

On March 25, 2020, the U.S. Securities and Exchange Commission (the "SEC") issued an order under Section 36 (Release No. 34-88465) of the Securities Exchange Act of 1934, as amended ("Exchange Act"), granting exemptions from specified provisions of the Exchange Act and certain rules thereunder related to reporting requirements for certain public companies (the "SEC Order"). The SEC Order provides relief to public companies that are unable to timely comply with their filing obligations as a result of COVID-19 outbreak, if certain conditions are satisfied.

The Company's operations and business have experienced disruptions due to the unprecedented conditions surrounding the spread of COVID-19 throughout the United States. The Company is relying on the SEC Order to delay the filing of the 10-Q due to the circumstances related to COVID-19. In particular, COVID-19 has caused disruptions to the Company and its outside advisors which has delayed the completion and review of the Company's financial statements to be included in the 10-Q in the time required to timely file the 10-Q. Notwithstanding the foregoing, the Company expects to file the 10-Q no later than June 29, 2020 (which is 45 days following the 10-Q's original filing deadline of May 15, 2020).

In light of the current COVID-19 pandemic, the Company provides the following Risk Factor explaining the impact of COVID-19 on its business:

A pandemic, epidemic or outbreak of an infectious disease, such as COVID-19, may materially and adversely affect our business and operations.

The recent outbreak of COVID-19 originated in Wuhan, China, in December 2019 and has since spread to multiple countries, including the United States and several European countries. On March 11, 2020, the World Health Organization declared the outbreak a pandemic. The COVID-19 pandemic is affecting the United States and global economies and may affect our operations and those of third parties on which we rely, including by causing disruptions in staffing, order fulfillment and demand for our product. In addition, the COVID-19 pandemic may affect our revenues significantly. Additionally, while the potential economic impact brought by, and the duration of the COVID-19 pandemic is difficult to assess or predict, the impact of the COVID-19 pandemic on the global financial markets may reduce our ability to access capital, which could negatively impact our short-term and long-term liquidity. The ultimate impact of the COVID-19 pandemic is highly uncertain and subject to change. We do not yet know the full extent of potential delays or impacts on our business, financing or the global economy as a whole. However, these effects could have a material impact on our liquidity, capital resources, operations and business as our customer base is highly concentrated in the restaurant and entertainment sector.
